

School for Seniors is primarily an organisation for people over 50 who like mental activity and want to pursue existing interests or develop new ones.

The activities of the School for Seniors are 'personal goal' orientated, with the intention of giving satisfaction to those who partake of its activities.

This satisfaction is achieved through the interaction with other like minded citizens and sharing information on a variety of topics.

1. It does not involve any examinations or testing. The only goals set are the ones you set for yourself.
2. There is a very diverse program and you can attend as many courses and as often as you like.
3. We encourage access to anyone who would like to join.
4. It is an informal organisation and is run by volunteers.
